**REACH 197 Declaration**

Voltage Multipliers, Inc., based in Visalia CA, acknowledges the 197 REACH substances that shall not exceed the maximum concentration limit of 0.1% or 1000 ppm measured by weight.

To the best of our knowledge VMI certifies that our products neither use or add the 197 substances intentionally and complies with Article 67 and Annex XVII.

Exception: Military Devices

Note: 184 Lead is used within Solder [Sn60Pb40](#) and [Sn62Pb36Ag02](#).for solder dip components.

Military QPL Diodes:

JAN/TX/V military grade diodes, QPL diodes, including JAN/TX/V, are solder-dipped per the governing Source Control Document.

Respectfully,

*Karen Spano*

Sales Administration Manager
